TextMate in Action

Watch screencasts featuring
TextMate.

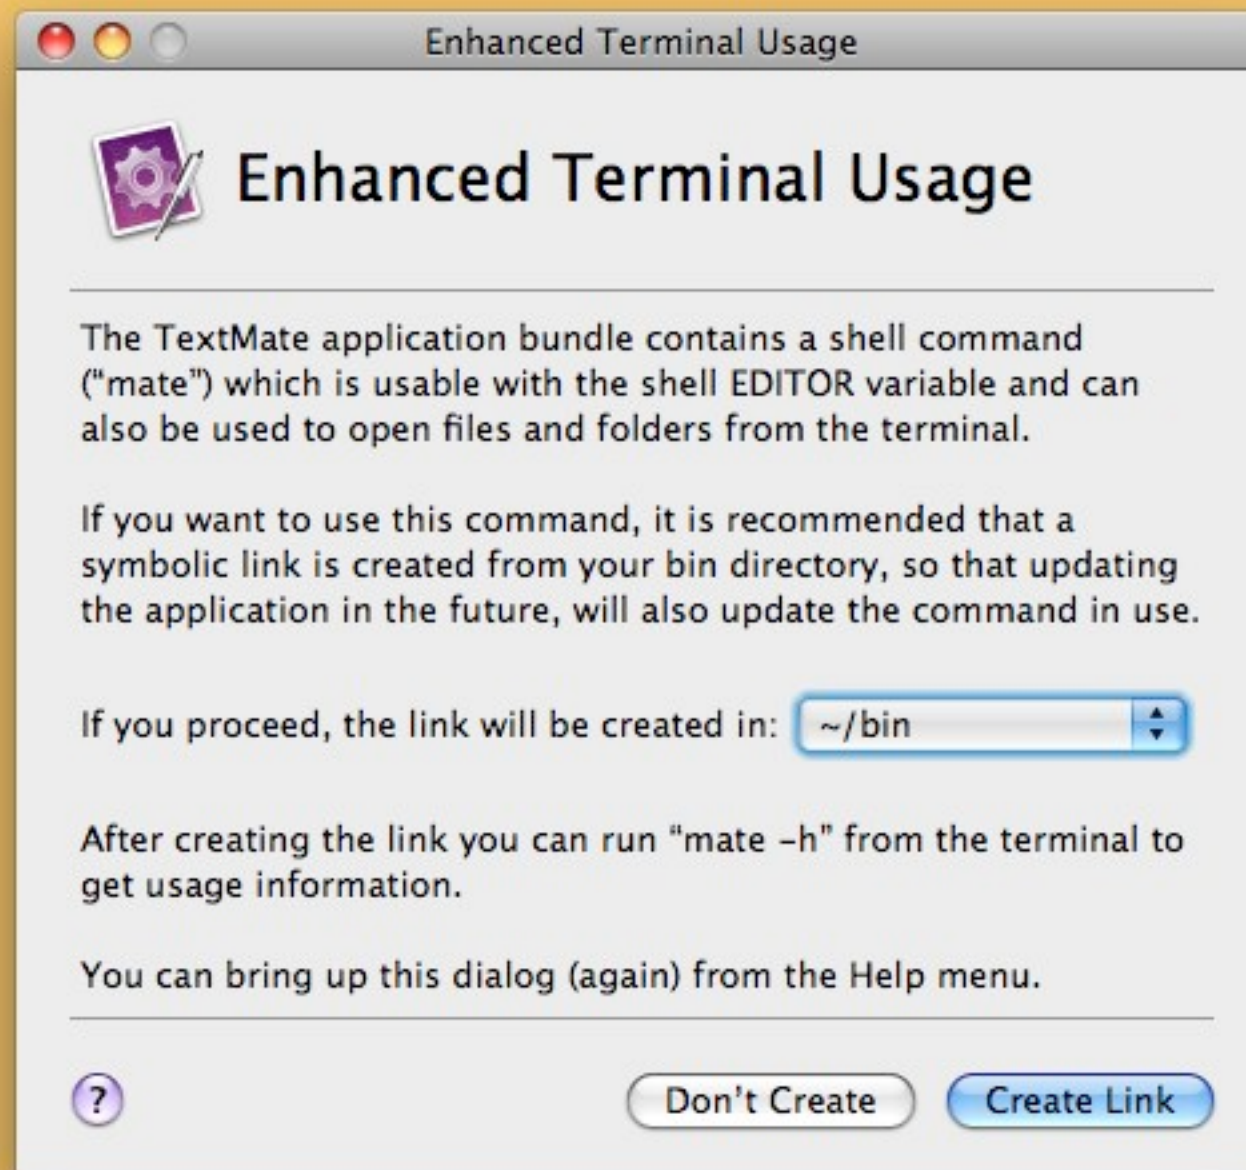

Buy the Book!

Read the TextMate book
by James Edward Gray II

Terminal Usage

- Help > Terminal Usage...

Snippets

```
# Rails bundle
# TAB autocompletion gives...
hm # =>
has_many :objects, :class_name => "Objects",
              :foreign_key => "class_name_id"

renp # =>
redirect_to(parent_child_path(@parent, @child))
```

Installing Bundles

- Download + double click
- svn/git into Library/Application Support/
TextMate/Bundles

Editing Bundles

- **Ctrl+Alt+Cmd+B**
- **Bundles > Bundle Editor > Show Bundle Editor**

Cool info

```
distributed_bundles: /Library/Application\ Support/TextMate/Bundles/  
your_bundles: ~/Library/Application\ Support/TextMate/Bundles/  
bundle: http://github.com/drnic/ruby-on-rails-tmbundle/tree/master  
svn_root: http://macromates.com/svn/Bundles/trunk/Bundles  
irc: ##textmate  
svn: svn co http://macromates.com/svn/Bundles/trunk/Bundles/Ruby%20on%20Rails.tmbundle  
git: git clone git://github.com/drnic/ruby-on-rails-tmbundle.git "Ruby on Rails.tmbundle"  
git_install: sudo port install git-core +svn  
git_branch_bash: |-  
  parse_git_branch() {  
    git branch 2> /dev/null | sed -e '/^[^*]/d' -e 's/* \(.*\)/(\1)/'  
  }  
  PS1="\w\$(parse_git_branch) $ "
```
